Re: Gravel Pit Report
Map 33 block 36 Lot 23 and 24
Johnathon Trumbull Highway Andover, Ct.

Dear Jim,

On behalf of the applicant William Genovese, I am reporting to you the following regarding activity at the gravel pit.

1. After attending the Planning and Zoning meeting on Monday night, even though the audio was only working for about 20% of the time, it was obvious that the Commission wants the grading on the gravel pit to be completed as soon as possible. After talking to the Contractor yesterday he told me he did not continue the grading during the last few weeks because I was not available to give him direction and officials from the town were telling him to do things differently from what I told him (I don't know who) Therefore, he just stopped. I was wrong in what I told the Commission that he was not available.
2. The Contractor as of today is proceeding grading the area. We have a surveyor going out next week to provide grade stakes in addition to the ones I provided some weeks ago.
3. We will notify you within 48 hours of the required inspection of the grading. We will install any additional required erosion and sediment control measures as specified on the restoration and maintain them thru the winter months and spring.
4. I will keep you informed as the work progresses.
5. I am awaiting any further notice from the Town regarding the gravel pit.

Please call me at 860-345-7337 if you have comments.
Respectfully submitted,

Christopher G. Bell, P.E.
