

5/18/23

Mike/Joe:

I am working with an applicant who is in the process of applying for a Special Permit at the property known as 87 Merritt Valley Road. The plan should be on line by Monday, June 22nd. I am hereby requesting that you review the plan and forward any comments or concerns to me via email. In the event you have no concerns, please respond accordingly. The application requires a public hearing which may be set at the May meeting, but no action will be taken prior to a follow up meeting. Presumably in June, so you have time to respond.

If you have any questions please contact me.

Thanks.

Jim Hallisey
Zoning Agent

5/22/23

Jim,

There is nothing in PermitLink as of this morning. I will review with Fire Chief Ron Mike, when they become available.

Mike Lester
Fire Marshal

5/31/23

Jim,

I spoke with the Fire Chief Ron Mike, the only issue we can foresee is the storage of large quantities of fuel (diesel or gasoline) and fertilizers.

Regards,

Mike Lester
Fire Marshal
