### INLAND WETLANDS & WATERCOURSES COMMISSION

#### Permit #IWWC20-24

**EFFECTIVE DATE: July 28, 2020**

**EXPIRATION DATE: July 28, 2022**

**Name and Address of Applicants:**

Town of Andover  
17 School Road  
Andover, CT 06232

**Name and Address of Authorized Agent:**

Eric Anderson, Town Manager  
17 School Road  
Andover, CT 06232

**Property to which this permit applies:**

Wales Road, Andover, CT (near Shoddy Mill Road intersection)

This authorization refers to an application to conduct a regulated activity in or within the upland review area of an inland wetland and/or watercourse in the Town of Andover.

**The permitted activities, within the upland review area include:**

- Removal and replacement of two catch basins and associated drainage pipe.

The Inland Wetlands and Watercourses Commission of the Town of Andover, following investigation, and after reviewing the full record, has considered the application with due regard for the criteria found in the Inland Wetland Regulations of the Town of Andover. The agency believes that the proposed activity, subject to the specified conditions, conforms with the purpose of Town regulations and does not violate any of its provisions or regulations governing wetlands and/or watercourses in the State of Connecticut. Therefore, this authorization will constitute the permit required pursuant to Section 6.1 of the Inland Wetland Regulations of the Town of Andover.

This permit is issued with the following specific conditions and/or modifications and with the attached general conditions:

1. Work shall follow the construction sequence noted in the application:
  - a. Work shall commence in July or August to coincide with seasonal low flow/rainfall periods. The existing catch basins will be cleaned prior to activity commencement in order to prevent sediment release to the nearby wetlands and/or watercourse.
  - b. A silt fence shall be installed between the wetlands area and the construction activities. Fencing shall be routinely inspected and maintained during the duration of the project.
  - c. Upon initiation of the project, a temporary hay bale sediment trap will be created at the existing pipe outfall. Culvert replacements will include built-in enhanced sediment traps.
  - d. After construction is complete, the area will be stabilized and reseeded. Silt fence and haybale sediment trap shall remain in place until removal is authorized by the wetlands agent.
2. Soil erosion and sediment control measures shall be installed maintained in accordance with the 2002 Connecticut Guidelines for Soil Erosion and Sediment Control.

This permit is subject to, and in no way derogates, any present or future property right or any other rights or powers of the Town of Andover. This permit conveys no property rights in real estate or materials or any exclusive privileges. No permission, either express or implied, is given for any regulated activities other than those authorized in this permit.

**The applicant will notify the Commission via its Agent 2 days before the permitted activity begins.**

**The applicant will notify the Commission via its Agent within 7 days of the completion date that the permitted activity has been finished.**

Joseph Wagner, Wetlands Agent

on behalf of the Town of Andover Inland Wetlands & Watercourses Commission

17 SCHOOL ROAD • ANDOVER, CT 06232

ALL TOWN OF ANDOVER INLAND WETLAND & WATERCOURSES PERMITS ARE SUBJECT TO THE FOLLOWING STANDARD PERMIT CONDITIONS:

1. **The Inland Wetlands Commission's Agent is to be notified 48 hours before the commencement and completion of any part of the activity.**
2. The granting of this permit does not relieve the applicant from obtaining additional permits and/or approvals required by other agencies federal, state, and local.
3. Any permit issued shall be valid for not less than two (2) years and not more than five (5) years. Any such permit shall be renewed upon request of the permit holder unless the agency finds that there has been a substantial change in circumstances which requires a new permit application or an enforcement action has been undertaken with regard to the regulated activity for which the permit was issued provided no permit may be valid for more than ten (10) years. Review permit section 310 of the General Statutes "Duration of Permit".
4. The applicant shall not assign or transfer this permit, or any part thereof, without the written permission of the commission or it's agent
5. This approval is for the activity within the regulated area surrounding a wetland or watercourse as indicated the latest revised map submitted with the application.
6. **All activities for the prevention of soil erosion, such as silt fences and hay bales shall be under the direct supervision of either the wetlands agent, or a certified engineer, who shall employ the best management practices, consistent with the terms and conditions of this permit, to control storm water discharges and to prevent erosion and sedimentation to otherwise prevent pollution, impairment, or destruction of wetlands or watercourses. Erosion controls are to be inspected by the permittee weekly and after rains and all deficiencies must be remediated within twenty-four hours of finding them.**
7. If any information provided by the applicant in the permit approval process is subsequently proved to be false, incomplete, or misleading, this permit may be modified, suspended, or revoked and the permittee may be subject to any remedies or penalties provided by law.
