Jeff

This email is to let you know that ALMA has approved the wall and dock applications attached to this email for 85 Lakeside Rd.

Regards,

Jeff Hays

In the mail today was the wall application from Jeff Miner for the Risley property. It included a map / diagram of the wall. See the second page of the attached pdf. We need clarification of the area near the firepit. My recollection is that the shoreline is pretty straight there, so why the bumped out region near the firepit?

John

Hello all- please review the following applications for dock and sea wall for the Risleys, submitted by Jeff Miner. Application has been submitted for the sea wall to IWWC. Their next meeting is 12/7 but the agenda is not yet posted so not sure if they are on that docket. But in case, I told Jeff that ALMA would review and get back to him prior to the 12/7 IWWC meeting.

I have Jeff's completed app for his dock at 97, and have requested his ALMA app for his sea wall. Once I have that I'll send to you all for review. His application may also be on the IWWC 12/7 docket.
