ALMA permit application.pdf;

Brenda,

I am pleased to inform you that ALMA has approved your request for the Wall repair/replacement as detailed in the attached permit application.

If you need anything else from us please don't hesitate to ask.

Regards,

Jeff Hays

Vice President, ALMA

Cell: 978-476-5521

Good morning Jeff,

We spoke again with the wall builder and with Joe at wetlands for the town and have updated our application.

The builder will use silt fencing and haybales for erosion and will be adding a layer of crushed stone lined with fabric between the wall and land. This has been added to our map of the property.

I hope this covers everything. Please let me know if there is anything else needed.

Hi Jeff,

Attached is the permit application for restacking our wall.

I hope all is in order and we can make the 9/14 wetlands agenda, but of course, it is Labor Day weekend.

Thanks for your help.
