326 Lake rd Wall Application.pdf;

Jeff,

This email is to inform you that the ALMA board has approved your request to rebuild the wall at 326 Lake road as detailed in the attached application. Please note the following:

- The lake has been lowered to our normal winter level and will not be lowered any further. We will raise the lake to its summer level approximately the third weekend in March unless there is still ice on the lake in which case it will be raised when all of the ice is gone. Please plan the work so that it is completed accordingly.
- As this is a rebuild the approval is contingent on the wall not extending any further into the lake than the existing structure.

If you have any questions please don't hesitate to contact me.
