PERMIT TO CONSTRUCT OR REPAIR A SEWAGE DISPOSAL SYSTEM

INSTRUCTIONS TO INSTALLER:

THE ATTACHED PERMIT TO CONSTRUCT IS APPROVED WITH THE FOLLOWING CONDITIONS:

1. This subsurface sewage disposal system installation must comply with Public Health Code Section 19-13-B103d and the approved plan- including all conditions noted on the attached permit and the Staking Verification Memo (for engineer designed plans).
2. After the permit to construct is approved, the installer must notify the Eastern Highlands Health District (EHHD) at least 24 hours prior to commencement of construction.
3. The licensed installer must contact EHHD to schedule all required inspections of the system construction. A minimum of 24 hours notice is required for all inspection requests.
4. The approval to construct will be valid for a period of one year from the date of issuance.
5. Approvals to construct may be renewed for an additional one year period by the director of health upon a demonstration of reasonable cause for the failure to start construction within the one year period (PHC 19-13-B103e(f)). You must contact the health district to request a permit renewal.

SELECT FILL MATERIAL used for this project must meet the specifications of the Technical Standards and approved plan. To demonstrate compliance, the installer must provide EHHD with the following documentation prior to placement of fill:

- For "bank run sand" a sieve analysis from the source pit that is 30 days old or less
- For state approved "manufactured fill" a sieve analysis from the source pile that is 60 days old or less. Additional testing may be required based on field observations by EHHD inspectors.

To contact the health district or schedule inspections, please call the sanitarian covering the town where the job is located:
