

Town of Andover

17 SCHOOL ROAD • ANDOVER, CT 06232

To: Austin Harmon – Hull Forest Products
Lance and Lois Dimock – Property Owners (Map 21, Block 1, Lot 6).

From: Joseph Wagner, Andover Inland Wetlands and Watercourses Agent

Date: April 5, 2024

Subject: Review of Proposed Timber Harvest

I reviewed the plan for the Proposed Timber Harvest on the above-mentioned property, and walked the public “rail trail” adjacent to the property on April 2, 2024.

For the section of the harvest that occurs in Andover, the main skid trail routes indicated on the map dated March 2024 are outside of any wetlands or watercourses. There is one wetland area on the far southern end of the property. Mr. Harmon indicated in an email sent April 3rd that this wetland area would be avoided during the harvest.

This letter shall signify that—since there are no wetlands crossings or activity in wetlands planned for the portion of this harvest that is in Andover--the proposed timber harvest is a Permitted "As-of-Right" Activity pursuant to the Inland Wetlands and Watercourses Act. No Permit application will be required for this activity.

Please note that any changes or additions to this plan may require a wetlands commission review and/or permit application.

Please also note that any relocation or filling of wetlands, any clear-cutting of timber, or any excessive siltation, ruts or erosion in and around wetlands can be considered a violation of the Town of Andover's Wetlands Regulations.
