

101 Gilead Road – Pictures from Wetland Agent visit with Contractor. Taken 03.19.2024

*1 - View of open drainage basin near Gilead Road. Photo was taken from the driveway at 101 Gilead, looking southwest. The plunge pool and pond are behind me.*

*2 - View of plunge pool. The man made pond is in the upper left corner. The pipe in the plunge pool is connected to the open basin near the road. Water flows from the road into this pipe, then under the driveway into this plunge pool.*

*3 - Looking north from driveway toward plunge pool and pond. The wetland area is behind and to the right of the pond. Any runoff from the plunge pool currently flows onto the lawn, then around the pond.*
