

Jim,

I hope all is well. I am sure you are getting bombarded with emails and calls on this project.

I am the new owner of the tree farm property next door to the purposed project. I am excited to see business growth in our town. Dollar general not so much, but that is not my choice to make. My biggest concern I have is location of parking lot, and or entrance lot. From what I have seen this can be a concern from a theft of tree standpoint.

Is it possible that a 6ft fence could be requested to be installed within this project? Being a new business owner of this property, I do not have the funds to pay for such a large expenditure already.

Any insight on this would be great. Keep up the good work.

Thanks

Ryan Fitch
