

# Town of Andover Board of Finance

Wednesday, September 23, 2020 at 7:00 P.M.

Location: virtual Zoom meeting

# Regular Meeting Packet

## Town of Andover Board of Finance

Wednesday, September 23, 2020 at 7:00 P.M. Location: virtual Zoom meeting

## Regular Meeting Agenda

## Call-in Directions to join the Zoom Meeting

Click here to join by computer for video/audio: <a href="https://us02web.zoom.us/j/84206696340">https://us02web.zoom.us/j/84206696340</a>
Call-in from your phone for audio: +1 646 558 8656

Then enter the Meeting ID: 842 0669 6340, Passcode: 536062

\*Please mute yourself unless you are a commission member or during Public Speak.

- 1. Call to Order/Pledge of Allegiance
- 2. Public Speak
- 3. Additions/Deletions of Agenda Items
- 4. Town Administrator's Report
- 5. Treasurer's Report
  - a. Town Budget Summary
  - b. Revenue Summary
  - c. TAR Spending
  - d. Over Expenditure Report
- 6. Budget Transfers
  - a. Budget Transfers/Supplemental Appropriations
    - i. Appropriation Transfers FY 2020
  - b. Over Expenditure Requests
- 7. Old Business
  - a. Governor's Executive Order
  - b. FY 2020-21 Town Budget
- 8. New Business

Discuss and act upon the following:

- a. BOE Request for unexpended funds in the School Improvement account
- b. Hiring Committee for Assistant Finance Officer
- c. Transportation Infrastructure Overview
- 9. Approval of Meeting Minutes
  - a. Wednesday, June 24th, 2020 Regular Meeting Minutes
- 10. Liaison Reports
- 11. Board Open Discussion
- 12. Public Speak
- 13. Adjournment

Helpfully submitted by Board Clerk/Administrative Assistant, Amanda Gibson.

# 1. Call to Order/Pledge of Allegiance

# 4. Town Administrator's Report

## Town Administrator's Report for the Wednesday, September 23<sup>rd</sup>, 2020 Board of Finance Regular Meeting

**COVID-19**. The town of Andover has not had a new case of COVID-19 in over 12 weeks. The entire Eastern Highlands Health District is averaging an accelerated rate, but this is due to testing all students on the UCONN Campus. EHHD is monitoring the increase. At this point the risk appear to remain relatively low but that does not mean we should not stay vigilant. There are clear trends from other states that have not been so lucky. We will have to wait and see what the school system in andover experiences. The first day of class went very well.

## **Political Signs in Andover:**

Because of recent decisions by The United States and Connecticut State Supreme Courts, the town of Andover is changing what it enforces for sign regulations. Sign regulations are normally covered by zoning regulations. But our regulations are now out of step with the law.

In light of the changing regulatory environment the following rules apply to Political signs in Andover for this election.

## Signs on private property

- 1. Currently no time limit on when the signs can be erected (this changes our previous 30 day rule)
- 2. Must be 15 ft from edge of pavement. This insures they are on private property and not in the town or state Right of Way and will not affect sightlines
- 3. Maximum of 32 square feet for any individual sign.
- 4. If multiple signs a total of 50 square feet of signage.
- 5. Maximum sign height 10 ft from the ground to the highest point of the sign
- 6. Sign Illumination must conform with section 15.4.4 and 15.4.5 as well as section 4.21 of the Andover zoning Regulations

### Signs on Public property to include the towns Right of Way on the sides of roads.

ON town property, the Board of Selectman, acting as the property owner can regulate what is allowed. However, the Content of a sign cannot be regulated. All signs must be treated equally.

Currently, Temporary signs less than 4 square feet each are allowed to be erected on Town property, or town Right of Way. This may change depending on what the Board of Selectmen Choose.

The Board of Selectman will discuss and may vote at the Sept 14 meeting on what the future policy will be for signage on town property. The Board of Selectman can allow signs on town property, or disallow them. They can regulate locations allowed, sizes, lighting, just not the content of the sign.

#### Website:

the new town website has been live for several months and has been very well regarded. The website committee may now be unnecessary at this point. Paula King can give more of an update. Much of the newer work of the work is due to Amanda's efforts.

#### **Public Works Info:**

Upcoming Road and Tree Work Scheduled for September

#### **Treework**

Andover has hired Distinctive Tree Care to remove dead trees along Andover's roadways. Our budget is limited, but we are addressing as many dead trees as we can. Basically we use a mechanized cutter and a large chipper. The chipper is needed every third day. We are closing roads wherever possible. It appears we can take down 50+ trees per day depending on the size so with chipping we are going to be around \$300 per tree. This is 2-3 times more cost effective than a bucket truck. It also requires alot less road work

Work commenced on Thursday sept and will take approximately two weeks. Working hours will be from 6:30 AM to 4 pm Monday through Friday. The order of work will be Townsend Rd, Long Hill Rd, Hendee Road and then Bunker Hill Rd. We will also have a series of individual trees that are on our list to be addressed and we will address as many of them as possible. There will be many dead trees that we do not get to. Those will be addressed in future years or as funds become available. We are using the most efficient process we can with the funds we have. Generally we are not removing Ash trees that are currently mostly alive, although we know that we will need to address many of them in future years. Realistically, I think we are looking at keeping or tree budget at at least \$50,000 for the foreseeable future. Pre covid 19 we had asked for 100,000 this year for tree work, but budgets could not be stretched that far.

## Guardrails

The town is addressing guardrail repair/ replacement on Lake Road near Basola, on Bunker Hill Rd, and a repair on East st as well as a single upright at the intersection of Bear Swamp and long Hill Rd. This will be ongoing in the next month. Again we are only addressing a small fraction of the total guardrail repair needed. We know there are a lot of other areas where guardrails need work. We have the funds to address about 10% of the bad sections.

## **Fog Sealing**

Fog Sealing involves spraying a layer of asphalt emulsion is over the chipsealed roads to fill in the gaps and make the road a bit smoother. It also prevents the chips from being displaced during snow plowing.

At this point Comer Contracting is scheduled to be fogsealing all the roads that are chip sealed on Sept. 21<sup>th</sup>. This is still a tentative date as we are all at the mercy of the weather. Roads will be closed for a few hours on a rolling basis as the road dries. More information and a more accurate date will be announced as it gets closer. Jurovaty Lane and Road, Wales Road, Riverside Drive, Stanley Road, Chesterbrook Lane, and Parker Bridge Road are all scheduled.

### **Paving Operations**

The town is Planning on Shimming (basically paving in a limited area as opposed to doing a whole road) the hill top on Bunker Hill Rd, Part of Lake Road, Part of Erdoni, a piece of West St. Paving will likely be the third week of September. Again there are many other spots that need it also, we just don't have the money to address them. Likely last week in September.

## **Pothole Filling**

Starting in Mid-October we will be renting a pothole filling machine called a durapatcher and sending the crew out to patch Potholes.

#### **Rail Trail**

There is an enormous amount of cutting required on the rail trail. I am leaning on the state DEEP to address it. I am using Public Works to address the safety hazards whenever possible.

#### **Transfer Station**

The transfer station will be regraded and repaved in the end of September. This will take approximately one week and the transfer station will be closed one Wednesday in September. We do not have exact dates from the contractor (Hain Materials) yet but will continue to keep people informed as it gets closer. Compactors are back installed and functioning.

I hired Regan Renovations to complete the interior of the attendants shed as well as the enclosure for the 3 phase equipment in the blue shed

We have an RFP out for grinding and removing the brush at the transfer station

## **Bunker Hill Bridge**

We are continuing to work with our consultant Close Jenson and Miller to keep this project rolling. We received the NDDB (National Diversity Data Base) requirements for the project. I have subsequently asked Hank Gruner to be our consulting Herpetologist for the project

Times Farm Bridge

DOT gave authorization for closeout of the project. We are now just waiting on an a final cost accounting of one of the change orders from CME. The engineer for the project quit the company and they are certifying an new one before it can resume. As it stands, there is a \$17,000 discrepancy CME has to resolve to the states satisfaction before we can proceed.

## **Culverts and Bridges**

Have a meeting with Brandon Handfield regarding the progress for the culvert survey.

## **Veterans Monument:**

We are working towards a revamped veteran's monument and to be able to accommodate a new agent orange monument as well as potentially a new cannon (155 Howitzer) (Now Canceled)

**Goal** A cleaned up and easy to maintain Veterans Monument Area that is an asset to the community and both aesthetic and practical.

### Steps:

- Plan for Overall landscape architecture for the area (need an initial survey)
  - Location and plan for new monument
  - Location and Plan for new howitzer if desired
- Revamped electrical system and Lighting Plan including new Monument controller for sprinkler system
- Plan for topsoil and Plantings
- Plan for fertilization and pest and invasive control
- Plan for sprinkler system and maintenance
  - Total flow rate needed
  - Well testing for capacity and flow rate calculations
    - Well is 56 ft deep 6" at 10 gallons/minute runs dry in about 20 minutes appears to be able to just keep up at around 3-4 gallons per minute
    - Suggest a new well or pounding the existing well would be appropriate
  - o New subsurface box with controller for easy maintenance
- Do we need to plan for security cameras? Location and coverage?

#### Stakeholders:

- Town Residents
- Memorial day and Veterans day Committees
- Beautification Committee or Possibly Grounds committee if reformed as such
- Gerry Wright
- Board of Selectmen

#### Costs:

Develop a cost worksheet based on the identified scope of work. Currently have proposals from Randazzo Design for topsoil, fertilization and weed control, as well as from Ron Bisson for irrigation and separately for topsoil installation.

Electrical- Meeting Rick Langley to discuss scope of work for project.

Possibilities for Survey work

Datum Engineering Mansfield CT Rick Zulic 860.428.9355 RVZulic@gmail.com

\$2500 +\$500 a2 survey + asbuilt field work must be done before oct 1. As built whenever

"Verbal quote"

Franklin Engineering Kevin Franklin 860 748 6183 kevin@franklinsurveys.com

My understanding is that you would like a Class A-2 Property Survey of the town-owned 1/2 acre +/- parcel of land at the intersection of Route 316 and Route 6, to be used for planning of site improvements. The land was released from the state to the town several years ago and is currently in use as the Andover Veterans Monument Park. Our scope of work would include the following tasks:

- Research of the Town of Andover land records to obtain relevant deeds and maps.
- Submit a request for information to the CTDOT Central Survey office for Route 6 and Route 316 highway right-of-way maps and proximate control points.
- Mobilize a survey crew to the site to initiate reconnaissance for property markers and establish a control point network.
- Reference the control point network to the CT State Plane Coordinate System by GPS and/or on-the-ground observations. (This is helpful for proper overlay of GIS information).
- Utilizing an electronic distance measurement total station, measure the positions of existing property markers and site features, including monuments, pavement outlines, signage, visible utilities, etc.
- The area to be surveyed will include the parcel of interest as well as the adjacent street frontages for context.
- Draft and deliver a Property Survey map depicting the above listed features as well as appropriate surveyor's notes, location map, and map legend.
- Meet with you and/or your assigns to gain an understanding of the nature and location of proposed improvements to the park. My assumption is that this task would involve one on-site meeting with additional correspondence conducted via phone or email.
- Re-release the Property Survey map as an Improvement Location Survey map to depict the proposed improvements over the existing features. Please note, this proposal does not include engineering or grading design services.

For the above scope of professional services, my fee would be a lump sum of \$3,500, inclusive of labor and direct expenses. If the scope and fee seem reasonable, I would be happy to send a formal proposal for your consideration. I understand you are also interested in obtaining an as-built survey upon completion of the project. Given the limited nature of the proposed improvements, the as-built task will require much less effort. My fee for a Class A-2 as-built survey would be \$1,500.

Thank you very much for the opportunity to send a quote.

I hired Datum engineering to do the work- lower cost and likely can get to it faster

From Ron Bisson labor and materials for sprinkler system \$4000

Install 3" top soil and hydroseed \$13,000

I talked to 1 well driller

**Stavins Brothers** 

2 options

1. Use a cable pounder to open existing seams and increase flow in existing well ~\$2800

- 2. Drill a new well from scratch \$5850 complete
  - a. Assuming PW installs a new larger vault to work in for the controller and pressure tank
  - b. Drill up to 400 ft
  - c. 20 ft of casing
  - d. Pump
  - e. Pressure tank
  - f. Installation
- 3. Reuse existing stuff
  - a. New well \$11 per linear ft
  - b. 18\$ ft for casing
  - c. Reuse existing vault, pump, pressure tank

#### **Town Hall:**

As you all know the Town hall is open by appointment but is fully staffed at this point.

We are installing a security camera that faces the new voting box. Bob Downer is Handling that.

### **Senior Luncheon:**

We have run multiple outdoor senior luncheon programs successfully

## Radar speed sign:

This has been a comedy of errors by the company. They have now sent us the wrong unit twice and are resending us the correct unit

## **Andover Library:**

Initial mural restoration is complete. The artist will be back in to touch up the remaining damage in the next few weeks. They still want to install curb guards, but I am not in favor of it.

Eric Anderson
Town Administrator

Dr. Sally Doyen Superintendent

Mr. John Briody Principal/Director of Curriculum

Mrs. Holly Maiorano
Director of Special Education

June 23, 2020

Marc Brinker, Chair Andover Board of Finance Town of Andover 17 School Road Andover, CT 06232

Dear Marc,

At its June 10, 2020 meeting, the Andover Board of Education approved the following motion that impacts the Board of Finance. Please include at your next Board of Finance meeting and forward us a copy of the minutes.

A motion to request to the Board of Finance that unexpended funds in an amount not to exceed 2% of the 2019-2020 budget, or \$81,300, be placed in the School Improvement non-lapsing account was made by D. Foran, seconded by S. Fuss, followed by a unanimous vote in favor of the motion by the Board of Education.

Please let me know if you need additional information.

Thank you.

Sincerely,

Sally E. Doyen, Ed.D., BCBA

Superintendent

Cc: Shannon Louden, Chairperson, Andover Board of Education

## **Town of Andover**

Board of Selectmen Monday, September 14<sup>th</sup>, 2020 at 7:00 P.M. Location: virtual Zoom meeting

**Regular Meeting Minutes** 

## 4. Boards and Commission Presentations

a. i. Assistant Finance Officer Job Posting
Jeff Maguire MOVED motion to appoint Town Administrator Eric Anderson and Board of
Selectman Adrian Mandeville, with Board of Finance Vice Chair Diane Choquette as the
Alternate Member if Adrian is not capable, as the Town's representative for the hiring
committee for the Assistant Finance Officer for the Town of Andover. These members
will join 2 representatives from Andover Elementary School and one outside
representative. The board delegated the determination of a local Finance Director to the
Town Administrator.

Adrian Mandeville SECONDED

## **Transportation Infrastructure Overview:**

Jeff Maguire asked me to put together a short outline of what our infrastructure needs are relative to transportation related and bridges

This serves as a big picture overview of our transportation infrastructure

We have 34 ½ miles of paved roads and one small gravel road left near the lake. This does not count state roads which we are not responsible for.

About 40% of the road network is rated as poor, very poor or failing. To bring it all up top good condition would require between 4 and 5 million dollars of expenditure.

Roads in Connecticut age at a rate of about \$10,000 per mile per year. Our baseline to keep them from getting worse is around \$340,000 annual expenditure. We are shifting expenditure to pavement preservation.

This year we will spend \$300,000 from the general budget + ~ \$120,000 from Town Aid Road

If we can add \$50,000 from fiscal year transfers it will help.

If we get the steap grant that will add \$128,000 for next spring .

Total Current Need \$ 4,200,000

Spend this fiscal year \$400K to \$600K

### **Bridges**

Bunker Hill We have 2 bridges over the Hop River that need replacement on Bunker Hill and Long Hill Rd. We are in the design phase for Bunker Hill Road bridge. We are looking at april 2022 to start construction on that bridge. We applied for and got accepted into an accelerated design program where the State DOT manages (and pays for) the design phase. We will pay 20% of the construction costs so assume we will have a total exposure of \$450K

Long Hill Rd bridge Will need to be replaced after Bunker Hill. This will also be done using the federal local bridge program. I would assume we would start the design phase in 2023 or 2024. Assume this one will be roughly 10- 25% more expensive than Bunker hill. I would assume the town will be liable for~ \$450,000 for that one

The remaining larger bridges are in good condition.

Currently we have \$160,000 in the fund allocated for Bunker Hill Bridge

Total costs for Bridge Replacement ~6,000,000

Andover is responsible for 20% of that cost minus the engineering costs

Assume total expenditure of 1,000,000 by the town of Andover over the next 8 years

#### **Culverts**

At this point we have a series of Large culverts that will need replacement.

I am ignoring culverts less than 30" in diameter from this discussion since those can generally be replaced with repaving and other drainage projects. At this point I want to focus on the two most critical ones. One is on Hutchinson Rd and then one is on Lake Road by Basola Rd. Right now we are lining up to get both of them surveyed with Topo since that is the first step. Our engineer indicated that both culverts are vulnerable to complete washout in a largescale storm event.

Based on recent RFP awards for similar projects Hutchinson will be in the neighborhood of \$200,000 if we can do it without utility relocation. This is not eligible for state or federal local bridge funding

The second one on Basola is estimated at around \$600,000. We will be applying for the state local bridge program for this which will bring our town total costs to ~300,000.

Over the next 15 years, we have 5-6 other culverts that will need replacement, but are not critical now most are in the 100-300,000 dollar range

Currently we have \$60,000 in the fund

Total Current need \$500,000 in the next 5 years

Total Expenditures over 15 years ~ 1.5 million

## Guardrails

We are slowly switching to metal guardrails as our existing post and wire guardrails fail.

On our list of priority sections to replace we have \$119,000 needed currently. To replace ALL of the failed guardrail sections would be at least twice that.

This year we are repairing storm damage in a few spots, and replacing a section on bunker hill and another on lake road. We are planning on expending  $\sim 20,000$  from TAR

Currently we have ? \$ in the fund

Total Current need \$120,000 in the next 5 years (priority sections only)

Total Current need \$240,000 Total replacement of failed locations

Expenditure this year 20,000

#### Treework

We have massive amounts of treework to do. We are in the midst of a huge tree die off. We have lost about ½ of all the ash trees in the town and will likely loose the rest in the next few years.

Since about 8% of the total tree canopy is ash, plus a significant die off of mature red white and black oak from the gypsy moths and the drought, roughly 10% of all the trees in the towns ROW are dead already with many more to come.

This year I asked for the tree budget to be increased to \$100,000 from \$10,000 we have been spending. We ended up with 50K. Right now we are using distinctive tree care for tree removal because they are about 3 times cheaper than using a conventional bucket truck. If we lucky, we can take down about ½ of the total number of trees that are already dead this year. We are not even cutting the dying trees-knowing in future years we are going to have to go back for them. I am trying to shift more money into treework from unexpended funds in which case I will have around 75K to spend this year. This will make a big dent in our problem but will not fix it. There are a bunch of trees that will require a bucket truck and they will cost at least 3 times as much as the ones that we can cut with the Grapple saw.

As some point, we need to get all the dead trees down, remove the trees within  $\sim$  6 ft of the pavement, and remove the canopy that is low over the roads that cause busses and trucks problems. I could easily spend a million dollars doing that if We could afford it.

The town is only responsible for the side of the road that is not near the wires. The Utility company has an enormous amount of work to do also.

We are incredibly vulnerable to a big storm. We just had a storm with 60 mph winds and it trashed the town. Imagine what a real Hurricane will do?

Currently we have \$50,000 in the fund. I am hoping we can add another \$25,000

Total Current need \$350,000 in the next 5 years Very rough estimate- assuming no catastrophic storms or tree infestations.
