Re: 353-357 Lake Rd - Grimaldi Subdivision, Dated 1-17-20, CES LLC

The plan proposes two lots:

1. The first lot is 353 Lake Rd. which has an existing house and approved private water supply well and subsurface sewage disposal system approved by EHHD.
2. The second lot will be 357 Lake Rd. and as shown on sheet 2 has an approved location for a private water supply and a subsurface sewage disposal system.

Both lots have soil testing reports from EHHD that indicate they are suitable for subsurface sewage disposal system placement according to the Connecticut Public Health Code.

I recommend approval.
