A couple questions have been asked:

1. Are we subject to Davis Bacon on this project?----- We are not subject to Davis Bacon as we are using ARPA Funds but we are very close to \$1 million so it we be prudent to consider compliance as the state statute for new construction is one million.
2. Do we have a local vender use policy? -----We do not but we do encourage it.
3. Do we have a CHRO requirement? -----We do not have a local requirement. We have also been advised that the state is not imposing a CHRO requirement as long as we are not using any state funds and are strictly using pass thru ARPA funds.
